ORGANIZER

PARTNERS:

We invite you to the **third edition of Green Gas Poland, an international conference of biogas and biomethane producers**, which will take place on **October 1-2** at the **Boss Hotel in Warsaw**. This unique event is organized by representatives of the Polish biogas plants for people operating in this industry and everyone interested in biogas and biomethane.

The new formula of the second day of Green Gas Poland: two parallel workshop sessions that will allow direct exchange of opinions and experience on one of the proposed topics in a limited number of people.

The group of over 400 participants of the previous two editions of the conference included representatives of existing and planned biogas and biomethane plants, representatives of the Ministry of Energy, the Ministry of Agriculture and Rural Development, the Energy Regulatory Office and the National Center for Agricultural Support, as well as companies offering products and services for the biogas and biomethane industry, recognized law firms, research institutes and key European organizations working for the promotion and development of using biogas and biomethane.

During Green Gas Poland 2020, in an opinion-forming group, there will be debates on the most important and current topics related to the challenges, prospects and opportunities facing the Polish and European biogas and biomethane industries. They will be accompanied by lectures and discussions on innovation in the biogas and biomethane sector, combined with the presentation of modern technological solutions.

At the end of the first day of the conference, a gala dinner will take place, during which the prizes "Biogas Ambassador 2020", "Biogas Plant 2020" and "Biogas Supplier of 2020" will be presented.

THE CONFERENCE TOPICS WILL FOCUS ON THE FOLLOWING ISSUES:

- the latest legal regulations regarding functioning in the biogas and biomethane industry
- experience of biogas and biomethane plant owners - good practices related to the selection of substrates, digestate management, use of heat, production and use of biomethane
- perspectives related to the use of biogas and biomethane

- biogas and biomethane as part of a circular economy
- optimization of energy sales
- biogas and biomethane plants in energy clusters and energy cooperatives
- investment financing and loan restructuring
- innovative technological solutions for installations producing biogas and biomethane.

PARTICIPATION IN GREEN GAS POLAND 2020 WILL GUARANTEE YOU:

- gaining knowledge about best practices for business development
- the opportunity to discuss with the most prominent practitioners and experts
- behind-the-scenes meetings with friends and partners, including a dinner with the Competition Gala "Biogas Ambassador 2020", "Biogas Plant 2020" and "Biogas Supplier of the year 2020"
- individual meetings with suppliers and getting acquainted with their most current offer published in the Green Gas Poland 2020 Catalog.

ORGANIZER:

The Union of Producers and Employers of Biogas Industry (UPEBI) is the Polish organization associating biogas and biomethane companies, which has been successfully working for the development of the biogas and biomethane industry for over 7 years.

PARTICIPATION FEE:

Participation in
2 days of conference
with accommodation

230 €

Participation in
2 days of conference
without accommodation

180 €

Participation in
1 day of conference
without accommodation

150 €

Members of UPEBI, EBA, PSPBR, ISEE, UPEMI or KIB | **20% discount**
